Caution

The lightening flash with arrowhead symbol, within an equilateral triangle is intended to alert the user to the presence of un-insulated "dangerous voltage" within the products enclosure that may be of sufficient magnitude to constitute a risk of electric shock to the persons.

The exclamation point within an equilateral triangle is intend to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

Correct disposal of this Product

"Correct Disposal of Product"

Produced after 13 August 2005. Waste electrical should not be disposed of with household waste. Please recycle where facilities exist. Check with your local authority or retailer for recycling advice.

This appliance complies with European Safety and Electrical directives

Safety Information

To ensure reliable and safe operation of this equipment, please read carefully all the instructions in this user guide, especially the safety information below.

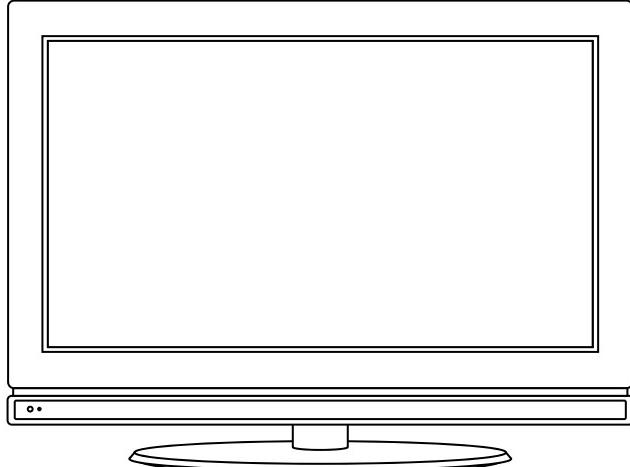

Electrical safety

- The TV set should only be connected to a mains supply which matches that stated on the label on the mains adaptor
- To prevent overload, don't share the same mains supply socket with too many other items of equipment.
 - Do not place any connecting wires where they may be stepped on or tripped over.
 - Do not place heavy items, which may damage the leads, on them.
 - Hold the Mains plug, not the wires, when removing from a socket.
 - During a thunderstorm or while leaving the TV for long periods, disconnect the aerial (if outdoor) and mains adaptor from the supply.
 - Do not allow water or moisture to enter the TV or mains adaptor. Do NOT use in wet or moist areas such as Bathrooms, steamy kitchens or near swimming pools.
- Pull the plug out immediately, and seek professional help if:
 - the mains plug or cable is damaged
 - liquid is spilt onto the set, or if it is accidentally exposed to water or moisture
 - anything accidentally penetrates the ventilation slots
 - the set doesn't work normally.
 - Do NOT remove the safety covers. There are no user serviceable parts inside. You may invalidate the warranty. Qualified personnel must only service this apparatus.
 - To avoid battery leakage, remove exhausted batteries from the remote control handset, or when not using for a long period.
 - Do NOT break open or throw exhausted batteries on a fire.

Physical safety

- Do NOT block ventilation slots in the back cover. You may place the TV in a cabinet, but ensure at least 5cm (2") clearance all around.
- Do NOT tap or shake the TV screen, you may damage the internal circuits. Take good care of the remote control, do not drop.
- To clean the TV use a soft dry cloth. Do NOT use solvents or petrol based fluids. For stubborn stains, you may use a damp soft cloth with dilute detergent.

Remote Control Key Functions

Menu Operation

Basic TV operation

Turning on and off the TV

TURN ON THE LCD TV:

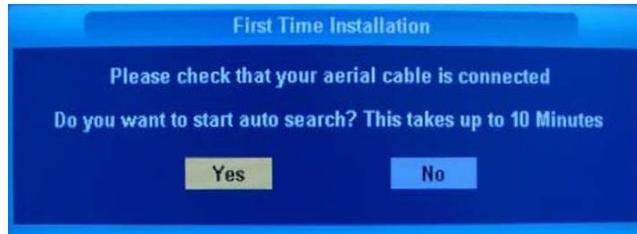

1. Connect the power cable to the mains supply and turn on the power by using the “POWER SWITCH” at the rear bottom right of the set. The standby indicator on the front of the TV will light up in red.
2. Press the **Power** button on the right hand side of the TV or the **power** button on the remote control to turn on the TV, the indicator will light green.

TURN OFF THE LCD TV

1. Press the Power button on the right hand side of the TV or the power button on the remote control to turn the TV off into standby mode, the indicator will light red.
2. To turn off the TV completely, set the POWER SWITCH at the rear bottom right of the TV to the 0 position, the indicator light will extinguish.

First time installation

Note: When the TV is turned on for the first time the “First time installation” menu will be displayed.

Please make sure the TV aerial is plugged into the RF socket at the rear of the TV. Make sure the Yes option is highlighted in yellow, then press the “OK” button on the remote control to start the tuning procedure. This process will find and store all available ATV and DTV channels. By pressing the “Quick start” button, the “First Time Installation” can be recalled at any time.

Volume adjustment

1. Press **VOL+/-** to adjust the volume.
2. If you want to switch the sound OFF, press the **MUTE** .
3. You can cancel this function by pressing MUTE or VOL+ button.

Choosing a TV channel

1. Using the CH+/- on the front panel or on the remote control.

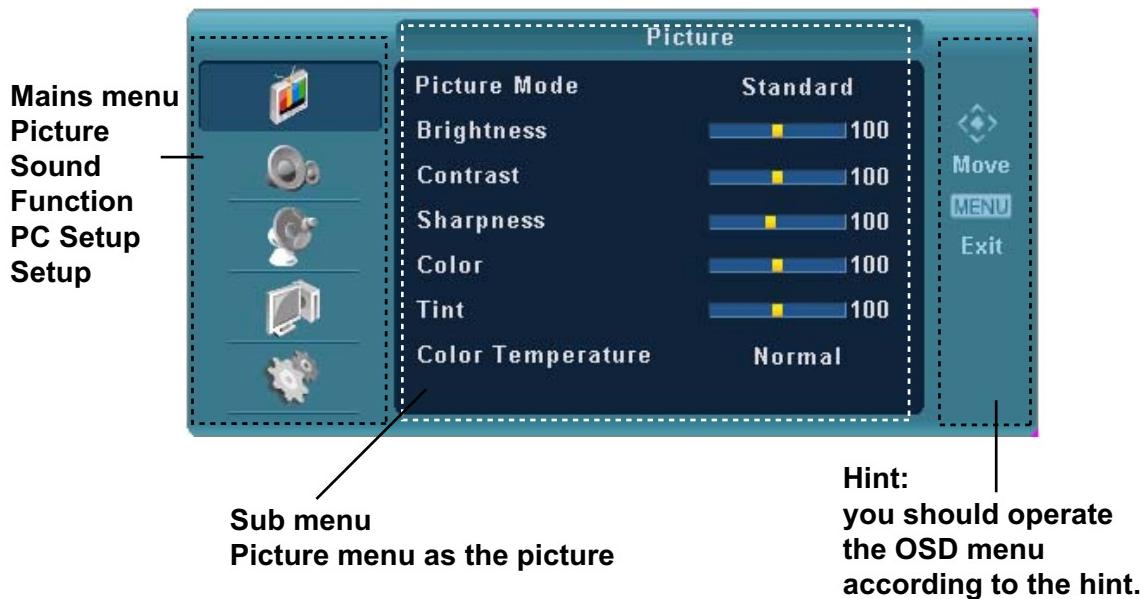

- Press **CH+** to increase channel number.
- Press **CH-** to decrease channel number.

2. Use 0-9 digit buttons to change channel:

Simply press a one digit number to choose the required channel or for a two digit number press the two digits of that number for example: digits 2 and 3 for channel 23.

How to adjust the OSD screen

- Press the **MENU** button to display the main menu as below.
- Use buttons to select menu, and press button to enter the menu.

Selecting input source

You can display the input source menu by pressing the **SOURCE** button on the remote control or the **TV/AV** button on the TV, press buttons to select, and press OK button to confirm.

In this manual, the OSD (On Screen Display) may be different from your TV's because it is just example to help the TV operation.

PICTURE menu options

Press the MENU button on your TV or on the remote control then use the buttons to select the picture menu, press the button to enter the menu (see picture below).

1. Use the buttons to select what you want to adjust in the Picture menu.
2. Press the buttons to adjust.
3. When you are satisfied with the adjustment, press the **MENU** button.

Picture Mode

Select the type of picture which best corresponds to your viewing requirements by selecting **Picture Mode** in **Picture** menu. You can select the picture mode directly by pressing the **Picture** button on the remote control.

Note: Only in **USER** mode is it possible to adjust the five options below manually.

Brightness

Contrast

Colour (This option is not available in PC Source)

Sharpness

Tint (This option is only available in the NTSC system)

Color Temperature: Select an optimum colour temperature from the options Normal, Cold and Warm.

SOUND menu options

Press the **MENU** button on your TV or on the remote control then use the buttons to select the Sound menu, press the button to enter the menu (see picture below).

1. Use the buttons to select what you want to adjust in the **Sound** menu.
2. Press the buttons to adjust.
3. When you are satisfied with the adjustment, press the **MENU** button.

Sound Mode

Select the type of sound which best corresponds to your listening requirements by selecting **Sound Mode** in the **Sound** menu. You can select the Sound mode directly by pressing the **Sound** button on the remote control.

Note: Only in **USER** mode is it possible to adjust the three options below manually.

Balance

Bass

Treble

AVC: Turn on/off the Auto Volume Control function.

SETUP menu options

Press the **MENU** button on your TV or on the remote control then use the buttons to select the Setup menu, press the button to enter the menu (see picture below).

1. Use the buttons to select what you want to adjust in the **Setup** menu.
2. Press the buttons to adjust.
3. When you are satisfied with the adjustment, press the **MENU** button.

Language: Select the OSD language.

TXT Language: Select the region TXT language (set west for UK) not available in DTV source.

Reset: Reset all the settings.

Osd Time: Select the duration of time that the menu stays on the screen.

Size: Select from Full, Panorama, Zoom, Auto, 16:9, 4:3.

Background: Select background colour Blue / Black (not available in DTV source).

PC SETUP menu options

The PC SETUP menu is only available in PC mode.

Press the **MENU** button on your TV or on the remote control then use the buttons to select the PC Setup menu, press the button to enter the menu (see picture below).

1. Use the buttons to select what you want to adjust in the **PC Setup** menu.
2. Press the buttons to adjust.
3. When you are satisfied with the adjustment, press the **MENU** button.

Auto Adjust: Turn on/off the Auto Adjust function. The TV will adjust H-Position, V-Position, Phase and Clock automatically to make the screen displays best when the function is turned on.

H-Position: Adjust the Horizontal position of the PC Screen.

V-Position: Adjust the Vertical position of the PC Screen.

Phase: When necessary, adjust the pixel phase of the picture to avoid picture interface.

Clock: Customize the time of any vertical bars or stripes visible on the screen background.

Channel menu options

The Channel menu is only available in TV mode.

Press the **MENU** button on your TV or on the remote control then use the buttons to select the Channel menu, press the button to enter the menu (see picture below).

1. Use the buttons to select what you want to adjust in the **Channel** menu.
2. Press the buttons to adjust.
3. When you are satisfied with the adjustment, press the **MENU** button.

Press the buttons to view the hidden options.

Parental Lock: Setting or modify the Parental lock.

- Initial Password is 0000.
- Change your password in the code entry box using the number keys (0-9).
- Input new password to the Enter New Password entry box using the number keys (0-9).
- Enter the same new password in the Confirm New Password entry box using the numbers(0-9).

You can exit the password setting window, by pressing the **Menu** or **Exit** button.

PIP (Picture In Picture) Function

Only in DTV source can you watch two channels at the same time.

First select a channel using the **CH+/-** buttons or **0-9** buttons.

Press the **Pic Swap** button, a small window will appear in the top left of the screen showing the same programme.

Use the **CH+/-** buttons to change channels in the small window or use the **0-9** buttons to change channels in the main window.

By pressing the **OK** button on the remote control will set the large screen to the same programme as the small screen.

To change the sound from main picture to small picture, press the **sound (S)** button on the remote control, two things will happen.

a) The small picture border will turn blue

b) The sound now belongs to the small picture.

Press the **sound (S)** button again to change the sound back to main picture.

To Exit the PIP mode, press the **Pic Swap** button or the **Exit** button.

Recording option in PIP is explained in the supplied TV Recorder User Guide.

Simple Troubleshooting

If the display or performance fails check the TV in accordance with the following instructions. If the TV still fails to function correctly contact your dealer for assistance.
